BRINGING TOGETHER GROWING TOGETHER

The 2017 Annual Report “Bringing Together, Growing Together,” is instigated by a series of determinative events starting in 2015 that have affected the Group’s performance negatively (see the Report of the Managing Directors).

In anticipation of the inevitable market downturn, the VSH Group of Companies have chosen to strengthen their core business activities.

In keeping with the 2016-2021 strategy, main goal is to gain regional dominance. Expanding from the traditional VSH Suriname market to Europe and to include the anticipated growth of the Guyana market are important and innovative steps. The differing business landscapes required an adjustment of the trading activities of product innovation in manufacturing and of the logistical service portfolio to secure (large) business-to-business opportunities.

Furthermore, the benefits of economy of scale compelled some Companies within the Group to rethink not only their sales & marketing strategy, but also their production capacity for the region.

As a result, the efforts put forward by the VSH Group of Companies to deal with said determinative events since 2015 have resulted in improved sales and production capacity at the manufacturing companies to benefit export growth in the coming years. The VSH Group logistical services portfolio was extended to include full service contracts with the oil and mining industries. In addition, the establishment of VSH-UNITED Nederland Company in Rotterdam as per 1 January 2018 completes the logistical circle for the growing market of the Suriname/Guyana region.

Inventory control overhaul resulting in increased efficiency as well as smart buying strategies at the Trading segment will ensure improved profit margins. Finally, management oversight and controls are supported by significantly improved workflow- and software system compliance as the result of a company wide upgrade of administrative processes.

“Bringing Together” the efforts of all involved to ensure “Growing Together” exemplifies the brand that VSH embodies.

SURINAME

Suriname is a country of 163,270 square kilometers situated on the northeast shoulder of South America and home of the VSH Group. While a Babylonian profusion of some seven languages are in everyday use, the official language is Dutch.

The population of some 530,300 souls is one of the most polyglot in the world and includes indigenous Indians, African descendants, Hindustanis, Javanese, Chinese, Lebanese, Jews and Europeans.

Recent arrivals include Brazilians and so called new Chinese. Almost half of the population is concentrated in and around the capital city Paramaribo.

Suriname has a strong democratic tradition dating back some 145 years. Legislative powers are in the hands of the National Assembly composed of 51 members elected by popular vote for a period of five years. The President is the head of government and is elected for five years by a two thirds majority vote in the National Assembly or by a common majority vote in the United Peoples Assembly comprised of national, regional and municipal representatives. The Council of Ministers chaired by the Vice President consists of 17 member ministers and exercises the highest executive and administrative power.

Mining is the backbone of the economy. Gold is mined in large, medium and small scale operations and provides employment to hinterland communities and migrant workers from Brazil.

Crude oil production and refining contributes significantly to the fuel requirements of industry and electric power generation. Energy requirements are further complemented by a hydroelectric dam located 90 km south of Paramaribo.

Rice, bananas, shrimp, fish and timber comprise the other traditional export products.

Suriname is the proud guardian of one of the largest expanses of pristine tropical rainforests in the world. The Central Suriname Nature Reserve (1.6 million hectares) is the largest of 15 protected areas encompassing 12% of the total land surface of the country.

Since its establishment in 1958 the VSH Group has grown steadily and is well positioned to participate in the further development of this young nation.

GROWING OUTSIDE OF SURINAME

Florida, USA, 2001

Taking advantage of Florida's business-friendly legislation, favorable tax climate and its geographical proximity to the Caribbean and South American, we commenced operations in Miami, Florida in October of 2001, offering air- and ocean freight services to and from Suriname. Florida is not only the top travel destination in the world. The Sunshine State also relies heavily on international trade, agriculture, aerospace and aviation, and the life sciences. As of 2015, Florida has the fourth largest economy in the USA with a real gross domestic product (GDP) of USD 840 billion and a USD 77 billion budget. Florida is

home to the nation's 2nd largest foreign trade zone network. The overwhelming share of Florida's trade moves to and from Latin America and the Caribbean, through the state's seaports and airports. Most of these movements are intermodal in nature, requiring also a highway and/or rail connection. The nominal value of exports and imports leaving from and coming to Florida has more than quadrupled over the last 20 years. Trade with Asia and Latin America is expected to increase, and improvements to the Panama and Suez Canals will allow a larger share of trade to move directly to Florida.

Georgetown, Guyana, 2015

VSH-UNITED (Guyana) Inc. was established in Georgetown Guyana in November of 2015. This new

addition to the VSH Group of Companies is an extension of our VSH Trading activities specializing in personal protective equipment and small home/office equipment. Additionally, VSH-UNITED (Guyana) provides sales and marketing support to VSH Steel and VSH-UNITED (USA), reflecting our “boots on the ground concept”. Much like Suriname, our neighbor Guyana has had a history of petroleum exploration since the 1940s. Guyana gained worldwide attention in May of 2015 when Exxon Mobil announced discovery of oil in the Liza-1 well, followed by Payara, Liza deep, Snoek, Turbot, Ranger and Pacora by early 2018. For a country of 750.000 people, the find changes everything. Within a decade Guyana will be completely transformed through economic growth.

The Co-Operative Republic of Guyana is a sovereign State on the northern mainland of South America. Guyana is bordered by the Atlantic Ocean to the north, Brazil to the south and southwest, Suriname to the east and Venezuela to the west. The official language is English. Guyana is part of the Anglophone Caribbean and member of CARICOM (Caribbean Community). CARICOM's main objective is to promote economic integration and cooperation among its members with a regional single market. The secretariat headquarters is in Georgetown, Guyana. CARICOM is an official United Nations Observer. In 2008, Guyana joined the Union of South American Nations as a founding member.

Moerdijk, the Netherlands, 2018

Due to recent oil finds off the coast of Guyana and the likely future discovery off the coast of Suriname,

the Suriname/Guyana region required a strong VSH EU branch. Consequently, we commenced operations in Moerdijk, the Netherlands, in January 2018. Various offshore service providers from Europe have been contracted for Guyana.

VSH-United is now the majority shareholder in a strategic and efficient NVOCC company/warehouse that is specialized in the Dutch Caribbean and will be able to support NVOCC development targeting Suriname/Guyana.

The Netherlands is located in Western Europe with a population of seventeen million. It forms a constituent country of the Kingdom of the Netherlands with three island territories (Bonaire, Sint Eustatius and Saba) and three constituent countries (Aruba, Curaçao and Sint Maarten) in the Caribbean. Suriname was Dutch territory until 1975, hence the trade connection. The European portion of the Netherlands borders Germany, Belgium, and the North Sea, sharing maritime borders in the North Sea with Belgium, the United Kingdom, and Germany.

The Port of Rotterdam is the largest port in Europe, located in the city of Rotterdam, the Netherlands. Until 2004 it was the world's busiest port. In 2011, Rotterdam was the world's eleventh-largest container port in terms of twenty-foot equivalent units (TEU) handled. In 2012 Rotterdam was the world's sixth-largest port in terms of annual cargo tonnage. The port of Rotterdam is mostly dependent on the petrochemical industry and general cargo transshipment handlings. The harbor functions as an important transit point for transport of bulk and other goods between the European continent and other parts of the world.

REPORT OF THE SUPERVISORY BOARD OF DIRECTORS

To the Shareholders

The Supervisory Board of Directors performed its duties in accordance with Suriname law, the Company's bylaws and Corporate Governance Code. We advised management on relevant matters and monitored management performance in relation to goals set. Management of the Holding and the subsidiaries regularly informed us, both verbally and in writing, on policy and material aspects of business strategy, corporate planning, major events, investments and transactions. Besides information of the company and the group as a whole, we also received detailed monthly reports from Management on the current business position of the Group's subsidiaries while we were kept abreast of results and the financial position, risks and risk management, HR and IT performance and planning in a thorough manner. The Supervisory Board of Directors was directly involved in all decisions of fundamental importance to the Group. In addition, we discussed strategic issues with Management on a regular basis while the Chairman of the Supervisory Board and the Managing Directors maintained a constant exchange of information.

Consultation and decision making

The Supervisory Board of Directors held regular monthly meetings, 12 in total. The board members regularly attended the board meetings. In addition, resolutions on urgent matters were adopted in writing or by electronic communication and later approved during official meetings. The subjects discussed in the meetings included the financial position and results, company long-term strategy 2016 - 2021, company policy, business plans and appraisals, health, safety and environment, investments, internal audit reports, management development and appointments. In the board meeting held on 7 August 2017, the board

approved the establishment of VSH-UNITED (Nederland) BV, a 100% VSH subsidiary registered in the Netherlands. In this meeting, approval was also given to management to proceed with negotiations for the purchase of 51% shares in IFC Holding BV a cargo consolidated company in the Netherlands. In the board meeting held on 17 August 2017, management presented financial statements over the first half year 2017. In the board meeting held on 22 November 2017 management presented the operational plans for 2018 and the board approved capital expenditures for 2018. Also, expenditures for the 60 year VSH jubilee in 2018 were approved by the board in a meeting on 15 March 2018.

Corporate Governance

In the meeting of the Supervisory Board of Directors held on 18 January 2018 the results of the internal audits 2017 were presented and the internal audit plan for 2018 was approved. In the board meeting of 15 February 2018, the results of the annual appraisals of the subsidiaries 2017 were discussed and the Corporate Governance Code was reviewed. Changes were made in the Audit charter to bring it in line with the Audit Committee charter. In a meeting held on 10 May 2018 the board approved an IT security policy charter as part of the Corporate Governance Code.

Audit Committee

(J.J. Healy Jr., S. Smit and R. Hahn).

In a meeting held on 23 October 2017 the Audit Committee and the external auditor discussed the follow up by management of the recommendations noted in the management letters 2015 and 2016. Special attention was given to cost control and the follow up regarding the upgrade of the financial software system Exact.

In a meeting held on 11 December 2017 the performance of the Head Internal Audit was evaluated and was found to be satisfactory. The Head of the Internal Audit presented the annual internal audit plan for 2018. In a meeting held on 15 March 2018 the Audit Committee, management, internal auditor and the external auditor discussed the management letter 2017. Special attention was given to the overseas companies especially the new established company in the Netherlands.

Remuneration Committee

(J.J. Healy Jr., D. Halfhide and K. Lim A Po).

Management performance and Executive Performance Pay

Management remuneration was evaluated and approved in the board meeting held on 14 December 2017.

On 14 December 2017 the Supervisory Board of Directors evaluated the overall performance of the Managing Directors of the United Suriname Holding Company and found the performance to be good. Specific areas of attention were discussed with the management including further development of financial administration software tools, identification of risk, establishing risk tolerance parameters and monitoring developments at the overseas companies.

Performance of the Managing Director of N.V. VSH FOODS is measured against a yearly minimum target of 20.0% of return on capital employed. Based on the return on capital employed of 20.2% the Managing Director received a short-term bonus amounting to SRD 32,696.

The Group on a consolidated basis and the other subsidiaries either did not meet their respective minimum target of return on capital employed or were not eligible to receive the short-term bonus.

The Supervisory Board of Directors decided to issue a one-time bonus amounting to SRD 104,267 to the CEO for his contribution at VSH Transport.

Supervisory Board of Directors changes and appointments

In accordance with article 7.20 of the bylaws all directors resigned during the Annual General Meeting of Shareholders on 30 June 2017. In this meeting five members, Mr. R. Khodadin, Mrs. D. Halfhide, Mr. R. Hahn, Mr. J. Healy Jr. and Mr. K. Lim A Po were re-elected as members of the Supervisory Board of Directors. To fill the vacancy left by Mr. A. Kluijver who resigned from the Supervisory Board of Directors effective 30 June 2017, Mr. S. Smit was elected a member of the Supervisory Board of Directors.

After having served for almost twenty-seven years as a member of the Supervisory Board of which 8 years as Chairman, Mr. R. Khodadin has decided not to stand for re-election.

Being eligible, the members Mr. J. Healy Jr., Mrs. D. Halfhide, Mr. R. Hahn, Mr. S. Smit and Mr. K. Lim A Po offer themselves for re-election in the Annual General Meeting of Shareholders to be held on 6 July 2018. The Supervisory Board of Directors recommends that the members mentioned be re-elected. To fill the vacancy left by Mr. R. Khodadin and to add a new member, the board recommends that Mr. V. Kenswil and Mr. P. Fernandes be elected as members of the Supervisory Board of Directors.

Should the shareholders elect the members as proposed the board will consist of seven members, the maximum number allowed under the bylaws.

Appointment of Managing Director Finance/ Chief Finance Officer

Due to the extension of the VSH Group with overseas subsidiaries the board endorses the recommendation of the management to appoint Mr. P. Brahim as Managing Director Finance/ Chief Financial Officer of N.V. Verenigde Surinaamse Holdingmij./United Suriname Holding Company in the Annual General Meeting of Shareholders to be held on 6 July 2018, effective 1 July 2018.

Performance of the Supervisory Board of Directors

In a meeting held on 14 December 2017, the Supervisory Board of Directors evaluated the performance of the Board. Based upon individual appraisals they found the performance collectively as well as individually to be satisfactory. The Board identified key areas of attention including risk assessment, the long-term strategic plan and more involvement in the foreign companies.

Dividend Policy and Interim Dividend

The policy of the Company is to pay a dividend in the order of 30% - 35% of the net profit attributable to the Shareholders of the Company, after deduction of unrealized profit from subsidiaries and the associate company. Subject to unforeseen developments the Supervisory Board of Directors has approved the payment of interim dividend for the year 2018 as follows:

- 1st quarter payable 17 July 2018;
SRD 0.15 per share
- 2nd quarter payable 15 August 2018;
SRD 0.15 per share
- 3rd quarter payable 15 November 2018;
SRD 0.15 per share
- 4th quarter payable 15 February 2019;
SRD 0.15 per share

Financial Statements and Division of Profit

In compliance with the requirements of article 9.20 of the bylaws, management presented the financial statements 2017 to the Supervisory Board of Directors on 20 June 2018.

These financial statements can be found on pages 32 to 54 of this annual report.

The independent external auditor, Lutchman & Co, audited the financial statements. Their independent auditor's report can be found on pages 55 and 56. The net profit attributable to Shareholders amounts to SRD 20,719,097 (2016: SRD 36,799,667). We recommend that the Shareholders approve the

financial statements as presented.

The Supervisory Board of Directors endorses the recommendation of the Management to pay a cash dividend for the year of SRD 5,263,796. If approved, total dividend will amount to SRD 2.65 per share and the balance of the net profit amounting to SRD 15,455,301 will be added to retained earnings. Four quarterly dividends have been paid for a total of SRD 0.60 per share. In celebration of the 60th anniversary of the VSH Group management proposes to pay out a bonus dividend of SRD 0.40 per share. The final dividend will thus amount to SRD 1.65 per share. The total dividend for the year of SRD 2.65 per share represents a payout ratio of 39.9% of realized profit and is above the normal policy threshold of 30% - 35% pay-out ratio. The board endorses the arguments of the management, in this instance, as set out in the Managing Directors' Report.

We advise the Shareholders to approve the dividend as recommended.

Remuneration of the Supervisory Board of Directors

The remuneration of the Supervisory Board of Directors amounts to SRD 162,060 per year and was last adjusted on 1 July 2017. The Supervisory Board of Directors endorses the recommendation of the Management to increase the remuneration of the Supervisory Board of Directors to SRD 206,520 per year effective 1 July 2018.

Appreciation

Our thanks and appreciations go to the members of Management, and all the employees of VSH United, its subsidiaries and the associated company for their contribution in 2017. Their collective hard work and commitment helped the VSH Group to a good performance in a challenging market environment and to make substantial progress towards achieving the goals set out in its long-term strategic plan.

A special thanks to Chairman Roy Khodadin for his balanced and objective leadership and for his insight and advice in promoting our objectives and Corporate Values during his tenure.

REPORT OF THE MANAGING DIRECTORS

Introduction

The VSH United Group of Companies has grown to become one of the most diversified groups in Suriname. August 22, 2018 will be the 60th anniversary of the date of incorporation of the first Company of what has now become the VSH United Group.

To support further growth of its core activities the strategy of building a wider market base led to the establishment of subsidiaries in Miami, U.S.A. (2001), Georgetown, Guyana (2015) and as per 1 January 2018 in Moerdijk, the Netherlands. The Group's major activities include ship agency, freight forwarding, port terminal operations, offshore support services, trading, manufacturing, real estate development and management. Through associated companies VSH United is involved in the insurance and hotel business.

VSH United

Group's result for the year 2017 were lower in comparison to the year 2016. Revenue from the Shipping and Real Estate segments improved while revenue from Trading and Industry segments declined.

In the Annual General Meeting of Shareholders held on 30 June 2017 the financial statements 2016 and a dividend of SRD 5,561,747 or SRD 2.80 per share were approved.

The VSH Corporate Governance Code is an integral part of the Group's Management policy. The Code and the Audit Charter were reviewed in February 2018 and changes were made to the Audit charter. Additionally, in May 2018 an IT security policy charter was approved as part of the Corporate Governance Code.

The year 2017 was year two of the strategic long-term plan 2016-2021. We explored logistical support service opportunities in Rotterdam, the Netherlands, as part of our ambition to achieve regional dominance fueled in part by the Guyana offshore oil discoveries and potential market development. This led to the establishment of VSH-UNITED (Nederland) and the acquisition of a majority stake in an existing Non-Vessel

Operating Common Carrier (NVOCC) company. Further, in line with our long-term professionalization objective we contracted the services of an Exact software consultancy bureau to provide onsite expertise for the expansion and improvement of the licensed Exact administrative modules. Continued development of new products and process improvements are leading the way in the industry- and trading segment.

The Business Environment

The Suriname economy grew by approximately 1.2%² in 2017 as a result of improved commodity prices for key exports in the oil and mining industry. This marginal growth came after two consecutive years of negative economic growth due to reduced income from oil and mining exports (2015: 0.3%², 2016: 7%²).

As a result of excessive government spending in 2015 resulting in inflation of 52.4%³ in 2016 and a currency devaluation from SRD 4.20 to SRD 7.50 for the USD - government expenditures/local debt payments were partially postponed in 2017. This combined with reduced consumer purchasing power stabilized the exchange rate at year-end at SRD 7.55 for the USD and brought inflation down to 9.2%.

The recession that started in 2015, worsened in 2016 and has stabilized in 2017.

Expectations are that the Suriname economy will grow in 2018 by approximately 2.5%⁴. This positive forecast is based for the most part on projected increased exports in the oil and mining industry and is heavily dependent on stable commodity prices. Improved Oil and mining industry performance is expected to have a trickledown effect on the other business sectors giving a much-needed boost to the local economy in 2018. The fact that the government has financed their expenditure and deficit in 2017 by borrowing from local and international banks and is now saddled with a depth that is unacceptably high is very concerning. Very little has been done to improve government tax income collections and to

reduce government expenditures in the long-term. The Suriname economy is still very vulnerable due to dependence on mineral resources and the need for diversification of the economy has become more urgent.

Newmont Suriname had their first full year of production at the Merian gold mine in eastern Suriname and reported better than expected gold production results. State Oil is a stakeholder in this venture. Iamgold has announced that it is exploring new mining sites in the Saramacca Project area and are extending their activities in Suriname. New investments are estimated at USD 160 million. Production from these new mines are expected to commence in 2019.

State Oil reported in their half-year report 2017 that they have experienced challenges in ramping up production from the oil fields in Saramacca. At the refinery, the improvements in equipment and processes have allowed for increased production for the high-end products. Projected price improvements of the high-end products and the Meriam Gold investment income will make a significant contribution to 2018 financials. Offshore exploration resumed in September/October 2017 with Tullow Oil drilling the Araku well without success in block 54.

The bauxite and alumina industry in Suriname developed by Alcoa dates back to 1916. The relationship between Suriname and Alcoa was formalized with a mineral agreement in 1957 and the establishment of the Suriname Aluminum Company N.V. (Suralco). In July 2015 Alcoa/Suralco announced that they would discontinue their operation in Suriname. By November 2015 Suralco halted Alumina production and in January 2017 the Paranam facility was shut down. In 2017, a bid round was carried out for the dismantling of the refinery. Eleven international contractors participated in the bid and the Dutch contractor KOOLE has been awarded the first phase contract. Work is to start in the second quarter of 2018.

In the agricultural sector FAI - Food and Agriculture Industries N.V.- has managed to maintain banana production levels. It is experiencing challenges in expanding production. Rice production continued its downward trend and exports continue to be affected by the quality of the export rice. Fisheries have seen improved exports.

In the air transport sector, overall passenger arrivals increased by 8.2%⁵ in 2017 compared to 2016. There was a significant increase of passenger arrivals (+/- 20%)⁵ via Johan Adolf Pengel International Airport. Additionally, international air travel via the smaller local airport at "Zorg

en Hoop" saw an average increase of 30%⁵ in passenger movements, mainly due to increased traffic to and from Guyana. Other ports of entry at Albina and Nickerie saw a decline in passenger movements. One regional airline based out of Curaçao, which had stopped service to Suriname in the first quarter of 2017, resumed operations in the fourth quarter of 2017 with significantly reduced capacity (from 760 passenger seats to 80 passenger seats weekly). The national carrier Surinam Airways and an international tour airline operator joined forces in the summer of 2017 and facilitated expanded passenger lift capacity in the summer months from Europe to support tourism development. Tourism remains the quick win option for economic diversification.

Financial Overview

The Group's net profit from continuing operations amounted to SRD 24,060,469 (2016: SRD 34,453,587). Total revenue amounted to SRD 125,214,325 (2016: SRD 123,853,321). Operating expense amounted to SRD 105,224,499 (2016: SRD 96,280,565).

The share of profit in associate company Assuria and the investment income amounted to SRD 8,971,915 (2016: SRD 17,504,547).

Profit before income tax amounted to SRD 33,032,384 (2016: SRD 51,958,134). Net profit for the year amounted to SRD 22,987,218 (2016: SRD 38,923,020).

It is important to consider the effects of the currency devaluation when comparing current and previous year financial reports presented in Suriname dollars.

Segment Performance and Reporting

Shipping

The ship agency companies VSH Shipping and VSH Logistics represent liner services from ports in Latin America, the Caribbean, North America, the Far East and Europe. These Companies also provide vessel agency services to various bulk carriers and offshore activities mainly for the developing oil industry. VSH Logistics also provides ticketing and cargo sales services to an airline operating to and from Suriname. In response to market developments VSH Agency Services was established in March 2017, this new ship agency company has been negotiating with different carriers in 2017 for agency representation. VSH-UNITED (USA) L.L.C. is based in Miami, Florida and is a registered Non-Vessel Operating Common Carrier (NVOCC) specialized in cargo movements from USA/Miami, Panama and Hong Kong to Paramaribo and Guyana. VSH Transport

⁵ Stichting Toerisme Suriname

is the port terminal operator offering stevedoring, terminal cargo handling, offshore shore base services, warehousing, project logistic support, customs brokerage and trucking services. VSH Labour Services provides the required specialized personnel to support the activities of VSH Transport.

Shipping income was 8.8% higher in comparison to 2016 and amounted to SRD 58,368,098 (2016: SRD 53,625,092). This increase in income is mainly due to an increase in cargo handling activities.

The increase in volumes reflects the relatively stable market conditions specific to the oil and mining industry imports. No large-scale projects were executed in 2017. The first quarter of 2018 shows a further increase of 4.96% in container volumes compared to 2017. Services operated by EUKOR Car Carriers, Seaboard Marine, Intermarine, Seatrade, MSC/Atlantic Feeder Service (AFS), Maersk Line and Sealand offer worldwide reliable shipping options within the group and in-house custom brokerage services complements our one-stop-shop logistics approach. Total number of regular cargo vessels handled in 2017 was 346 (2016: 318).

The segment operating result amounted to SRD 25,028,843 (2016: SRD 25,048,907). The long-term investments in a port mobile crane, software developments, personnel and terminal expansion has resulted in efficiency improvements. One offshore project that started in November 2016 was completed in May 2017, while a second project which started in December 2017 continued in 2018. New offshore projects are expected in 2018/2019 and will require continued focused efforts to ensure successful participation in the highly competitive bidding processes.

Prospects for growth in vessel and cargo handling for the remainder of 2018 are largely dependent on the improvement of Suriname's economic conditions. In addition, increasing cargo volumes in the Guyana market has been met by strong competition.

In line with our strategic long-term plan 2016 - 2021 and our ambition for regional dominance, continued capacity strengthening is required for VSH-UNITED (Guyana) to grow our share of the cargo market and offshore services in the Guyana basin.

Trading

N.V. VSH Trading is the distributor for Canon office equipment in Suriname and holds an important share of the market for copiers, printers and scanners. VSH-UNITED (Guyana) Inc. acts as a Canon reseller in the Guyana market of small office and home office-equipment and supplies. Both companies are official distributors for Red Wing products and they supply major industries with quality footwear for the workplace. A full line of Personal Protective Equipment (PPE) complements the assortment available to customers.

Trading operating income is stated after deduction of cost of goods sold. Operating income was lower and amounted to SRD 6,783,768 (2016: SRD 6,861,798). Segment operating result amounted to a loss of SRD 1,355,213 (2016: profit SRD 240,857).

This significant loss is predominantly due to unexpected slow sales and increased expenses with regards to our Guyana operations. Anticipated market growth related to the newly developing oil industry in Guyana did not materialize in 2017. The Liza Phase 1 development continues to progress, mostly with laying the foundation for production start-up in 2020. Liza Phase 1 involves the conversion of an oil tanker into a floating, production, storage and offloading (FPSO) vessel named Liza Destiny, along with four undersea drill centers with 17 production wells. Construction of the FPSO and the subsea equipment is under way in more than a dozen countries. "First oil" to be produced in the Liza Phase 1 is scheduled for March 2020. Developments in Guyana in 2018 including increased investments by government and local companies in improving infrastructure and real estate to facilitate support services for the oil industry on shore point to improve market conditions. There is a large influx of expats brought in by offshore contracting companies which are setting up offices and shore base infrastructure, all signaling increased demand for safety shoes and PPE supplies.

Exact administrative software consultancy support commenced at the VSH Trading in May 2017 and was completed in December 2017. The improved use of Exact has now clearly defined the user rights of individual employees, implemented among other modules the Warehouse Management System and strengthened management's overall controls. Footwear sales increased by 14.92% whereas sales of PPE increased by 20.82%. Sales in office equipment

declined by 21.87% in line with market trends for similar products. Improved management capacity supported by dedicated support staff will bring improved results in the coming years.

Foods

The Foods segment is related to activities of N.V. VSH FOODS publicly traded company (VSH share position: 56.01%). Company activities include the production and distribution of margarine, butter and shortening. Operating income is stated after deduction of cost of packaging and raw materials.

Segment operating income in 2017 was 18.7% higher than 2016 and amounted to SRD 15,779,357 (2016: SRD 13,290,108). Segment operating result in 2017 was 54.5% higher than 2016 and amounted to SRD 3,269,253 (2016: SRD 2,116,445).

The effects of inflation and increased cost for raw materials, especially for the butter production, led to a number of price increases. This combined with weak consumer spending power restricted overall volume growth by 6.0% compared to 2016: +16.6%. The local market conditions continue to underscore the importance on exports. In line with our strategic long-term plan 2016-2021, export volumes in 2017 increased by 37.7% compared to 2016. Overall export volume made up 27% of the production volume compared to 21% in 2016. Three out of four targeted markets experienced significant growth with Jamaica (24%) and Trinidad (31%) leading the way and recent entry (Q4 2016) into Guyana posted a growth of 31%.

The focus on professionalization in the area of production planning, preventive maintenance and strategic investments in the packaging lines has resulted in improved productivity. The management team has confidence in the strong product line and is focused on administrative and production efficiencies and investments required to ensure volume growth to further improving financial results.

Detergents

N.V. Consolidated Industries Corporation (CIC), a publicly traded company (VSH share position: 60.15%) proudly commemorated its 50th anniversary on the 25th of November 2017. This milestone substantiates the Company's position as a well-established manufacturer of a wide range of industrial/household detergents and plastic packaging materials. The Company's products command an important share of the local and regional markets.

Operating income is reported after deduction of cost of packaging and raw materials. Segment income declined by 3.9% in 2017 and amounted to SRD 36,793,328 (2016: SRD 38,296,885). Segment operating result was 11.5% lower than 2016 and amounted to SRD 5,264,040 (2016: SRD

5,946,907). Inflation, weak consumer spending and an influx of substandard products affected overall sales and reduced local volume by 6% for the year. Exports volumes also declined by 16% in 2017 as a result of lower demand in major export markets due to declining economic conditions and the impact on logistic supply during the hurricane season.

- Powder detergent production volume declined to 2,320 MT (2016: 2,790 MT)
- Liquid detergent production volume declined to 4,077 MT (2016: 4,512 MT)
- Bleach production increased to 778 MT (2016: 660 MT)
- Production quantities in the plastic blow-molding increased to 314 MT (2016: 275 MT) as a result of the commissioning of the PET blow-molding machine in Q4 2016.

The challenging market conditions during the year resulting in reduced volumes and income forced management to focus on increasing profitability in a shrinking local market. Strategic marketing and pricing decisions made resulted in improved gross margins and increased local sales by 10%. Motivated by the strategic long-term plan 2016 - 2021 for regional dominance, aggressive measures were taken in the second half of 2017 to offset the approximately 59% decline in one major export market and resulted in improved exports in the fourth quarter. These efforts were still not enough to recover from the overall lost export sales for the year. Overall export volume made up 31% of the production volume down from 34% in 2016.

The commitment to improved business processes and product innovation are also contributing drivers leading the long-term strategic plan 2016-2021. Production and product improvements are ongoing while the Exact consultancy support team is working closely with the management team to implement automated administrative processes to support improved purchasing, inventory and sales management activities. The highly motivated CIC organization with strong established brands is focused on regaining market position both in the local and export markets.

Steel

N.V. VSH Steel provides engineering services and produces prefabricated steel structures for the construction industry in Suriname, the Caribbean and Central America. Operating income is reported after deduction of cost of raw materials. Operating income declined significantly in 2017 to SRD 4,360,485 (2016: SRD 9,602,146) due to challenging local and regional markets. Segment operating result amounted to a loss of SRD 2,850,679 (2016: profit SRD 3,268,153). Production volume for the year amounted to 208 MT (2016: 790 MT) of which 62% was export

compared to 61% in 2016. Sales and marketing activities in the Guyana market supported by our VSH-UNITED Guyana office made its contribution by focusing on the mining sector. As stated earlier the anticipated market growth as a result of the developing oil industry in the Guyana market did not materialize in 2017.

All of the export production was for the Guyana market, still a number of Guyana quotations have been postponed pending improved economic conditions and the start up of mining projects. Continued emphasis will be on export and in particular the Guyana market if the Company is expected to turn a profit in 2018.

We can report that by June 2018 a total of 750 MT in projects were signed and in production. In addition 4 standard warehouses, which were fabricated in 2017 and held in stock, were sold to customers in Suriname, Guyana and French Guyana. Prospects for the Suriname market for the remainder of 2018 are bleak whereas the Guyana market is showing signs of investments in various real estate projects to facilitate support services for the oil industry. Gold and Bauxite mining investments have also been announced for 2018.

The VSH Steel organization has a proven track record of resilience and management is committed to turn the loss of 2017 into a profit in 2018.

Real Estate

N.V. VSH Real Estate owns, develops and manages real estate objects for use by the Group or for limited rental to external tenants. This segment also includes the historic apartment building at Waterkant owned by VSH Trading. Real Estate income amounted to SRD 7,709,606 (2016: SRD 3,424,091) and operating result amounted to SRD 3,312,507 (2016: SRD 3,068,423). This increase is due to improved occupancy. The project to build a modern office building on our last vacant property in Paramaribo at Van 't Hogerhuysstraat is on hold pending improved economic conditions. We continue to explore real estate opportunities whether in developing the existing strategic industrial lots at Paranam or possible new investments to support the VSH Group strategic objectives in Guyana.

Associate Company

Assuria N.V. (VSH share position: 24.63%) is the largest publicly traded insurance company in Suriname offering a broad range of life, casualty and health insurance products in Suriname, Guyana, Trinidad and Tobago and other Caribbean territories. Assuria is the largest shareholder in De Surinaamsche Bank N.V. (DSB), the largest retail bank in Suriname. The Bank Act of 2011 requires Assuria to reduce its shareholding in DSB to 20%.

Assuria's share position as of 2017 remained at 44% with permission from the Central Bank of

Suriname.

The difficult economic climate, especially in the Suriname market has had its effects on the insurance industry. For Assuria the life and general insurance business in Suriname performed well in 2017. The medical company, on the other hand, recorded a substantial loss. The insurance branches in Guyana, Trinidad and Tobago and other Caribbean territories performed well in 2017. In 2017 the DSB continued with recovery measures and is expected to post a small profit. Assuria is confident that the bank is on the right track of recovery and will continue to provide support when and where possible.

The Company's share in the equity of Assuria amounted to SRD 62,001,133 (2016: SRD 74,071,528). The price for an Assuria share on the last trading session in 2017 at the Suriname Stock Exchange amounted to SRD 94.20 (2016: SRD 94.75). The Company's share in the net profit of Assuria amounted to SRD 7,926,056 (2016: SRD 16,853,749). During the year an amount of SRD 3,082,639 (2016: SRD 2,501,618) was received as cash dividend.

Investments

Investments include the Company's strategic investment in Torarica Holding N.V., the subsidiary N.V. VSH Investment and other investments in local production companies and financial institutions. Investment income amounted to SRD 1,045,859 (2016: SRD 650,798). At year end investment assets stood at SRD 20,111,096 (2016: SRD 18,171,967).

Strategic Investment

Torarica Holding N.V. (VSH share position: 14.19%) operates three hotels in prime locations along the Suriname River. The Royal Torarica is a 105-room luxury hotel located next to Torarica, a 130-room first class hotel and casino in the entertainment centre of Paramaribo. A short walk from Torarica Hotel is a fine 120-room hotel called Eco Resort. These hotels provide state of the art accommodation mainly to business visitors and tourists.

Investment Subsidiary

N.V. VSH Investment operates as broker on the Suriname Stock Exchange. The Suriname Stock Exchange meets twice a month and 12 companies are listed. The Index declined slightly; from 9,661 at the end of 2016 to 9,531 at the end of 2017, a decline of 1.3%.

Proposed Dividend

Profit attributable to the Shareholders of the Company amounted to SRD 20,719,097 (2016: SRD 36,799,667). Quarterly interim dividend amounted to SRD 1,191,803 or SRD 0.60

per share of nominal SRD 0.10 per share. Management proposes a final cash dividend of SRD 4,071,993 or SRD 2.05 per share of nominal SRD 0.10 per share. Total dividend then amounts to SRD 5,263,796. This dividend proposal represents 39.93% of the net realized profit and deviates from the Company policy to pay a dividend in the order of 30% to 35%.

The VSH Group will be commemorating its 60th anniversary on 22 August 2018 and Management proposed a one-time deviation of the policy to allow the shareholders to share in the joy of this special occasion. Management further recommends that the remaining profit amounting to SRD 15,455,301 be transferred to retained earnings. Should the proposed dividend be approved, Shareholders equity will amount to SRD 179,666,107 at the end of the year.

Share Price

At the end of the year the price for shares of the Company at the Suriname Stock Exchange amounted to SRD 72.00 per share (2016: SRD 72.00 per share).

Financial Condition

Liquidity and capital resources

The consolidated cash flow statement illustrates that cash and cash equivalents at year end decreased to SRD 36,799,801 (2016: SRD 40,839,722). In 2017 operating activities generated SRD 15,814,087 (2016: SRD 14,474,624) in cash and cash equivalents. Investments in financial and fixed assets amounted to SRD 15,739,369 (2016: SRD 7,250,512) and were partially financed by own means.

Assets and capital structure

Equity and debt

The Group's capital structure is as follows:

in SRD	2017	2016
Interest-bearing loans and borrowings	23,947,818	26,158,395
Cash and cash equivalents	(36,799,801)	(40,839,722)
Total equity	202,860,373	202,985,382
Total net capital employed	190,008,390	188,304,055

Investments financed by own means amounted to SRD 14,779,796 (2016: SRD 6,878,549).

Legal

We must report an internal fraud case committed by an employee. Criminal charges were filed against the employee. The court case is ongoing and a lien on personal assets is in place. The arbitration case between VSH Transport and Havenbeheer Suriname N.V. regarding allocation of vacant space at the port of Paramaribo and a conclusion is expected in 2018.

Personnel and Organization

Management consists of 7 Managing Directors; 3 Assistant Managing Directors and 32 specialized staff members. At the end of the year the Group employed 405 persons (2016: 405 persons). Of the 405 employees 28% is female while 72% is male.

The diversified nature of VSH-UNITED requires a wide range of personal and professional skills. The Company encourages individual development by providing financial assistance for career development through specialized training. Training during the year included: first aid refresher courses, Excel advance courses, Time Management courses, Container Technician Certificate course, VSH Code of Conduct refresher sessions, Cyber security courses, Project Management training, HSEQ courses and Customer Service & Sales courses, BA and MBA courses.

Bonuses and salary adjustments are based on performance evaluation. Bonuses paid for the year amounted to SRD 6,297,024 (2016: SRD 5,430,258). A medical insurance plan provides medical services to employees and their families. Employees contribute 4% and the management 6% of gross wages to the medical insurance plan. Medical insurance for employees of VSH Labour Services is insured with a "Nationale Basis Zorgverzekering". Employees of VSH Labour Services contribute 50% of the premium to the medical plan.

The VSH Pension Fund is incorporated in a separate legal entity, which is governed by a board consisting of four members of whom Management appoints the Chairman and Secretary and two other members are elected by the Pension Fund participants. At the end of the year there were 206 active pension fund members, 60 persons with deferred pension, 23 pensioners, 4 widows and 6 orphans receiving pension.

Premium reserve at 31 December 2017 amounted to SRD 49,430,278 (2016: SRD 36,948,261). Total equity of the fund amounted to SRD 70,679,384 (2016: SRD 55,445,681)*. Pension benefits for 115 CIC employees are insured. Under this plan there are 31 pensioners and 4 persons with disability pension. Pension benefits for 64 VSH Labour Services employees are secured in "Algemeen Pensioen Fonds", which is maintained by a foundation managed by the Government.

*Unaudited

Personnel activities

On 31 December 2017, the traditional closing of the year party was held with the employees of the Group to honor employees celebrating 10, 12.5, 15, 20, 25, 30, 35 and 40 years of service. We honored:

- *10 years of service:* M. Pachai (Holding)
- *12.5 years of Service:* E. Fong Tin Joeng (CIC); U. Tuinfort (CIC); G. Zinhagel (CIC)
- *15 years of service:* M. Ramsundersingh (Holding); S. Nejal (Holding); R. Adipi (Steel); R. Gajadhar (Steel); M. Maartens (Steel); R. Martodimedjo (Steel); M. Danoeatmodjo (Shipping)

VSH Labour Services – Mr. R. Rijssen retired on 1 January 2018.

CIC – honoring retirees at end of the year party December 2017.

We also honored Mr. R. Rijssen (14 years of service VSH Labour Services), Mr. A. Combo (26 years of services CIC), Mrs. I. Ommen (27 years of services CIC), Mr. A. Tojong (25 years of services CIC) and Mr. A. Hatomi (42 years of services CIC) who retired on 1 January 2018.

Community Activities

The VSH Community Fund is incorporated in a separate legal entity, which is governed by a board consisting of three members of Management. The Fund supports sustainable community projects in education, environment and healthcare. Some of the projects supported are mentioned below.

The foundation has three permanent projects: the daily bread project for the children's home "*Zout der Aarde*", "*Villa Zapakara Kinder museum*" and a yearly membership fee for the organization "*Friends of Green Suriname*".

The foundation donated:

- to the "Surinaamse Karate-Do" association representing Suriname at the Caribbean Karate Championships in Suriname as host country;
- to the "Youth Leaders of Today" Fund for distribution of schoolbags at beginning of the new schoolyear;
- safety shoes to several Technical schools
- to the Rotary Clubs for supporting the Go Glo educational project and the Students Excellence Award project;
- printers/copiers to several schools;
- to the National Art Fair
- to the Salvation Army Christmas Charity Project

During the year, especially during religious holidays and school vacations, donations are made to churches, educational vacation projects and to community organizations to give comfort to the elderly, and to support the youth and the disadvantaged.

Outlook

The expectation is that the Suriname economy will grow in 2018 and that is good news. Projected economic growth continues to depend on the traditional oil and mining sector. Very little has been done to re-establish (local) investor confidence. No real effort has been made by the Government to promote diversification and to develop a transparent trade and industry policy supported by a modern investment law and a strong judiciary to provide a level playing field.

The focus of the VSH Group of Companies is to counter reduced income from local sales and services on market expansion and export growth. The strategy to expand our home market in the Guyanas has been complimented with the establishment of the VSH UNITED (Nederland) B.V. and expansion

into the Dutch logistics market targeting the Dutch speaking Caribbean and the Guyanas.

Professionalization of our internal support services has strengthened the organization and modern automated business processes have increased efficiency on the work floor.

To quote Mr. Andy Grove, former CEO of Intel:
*“Bad companies are destroyed by crisis.
Good companies survive them.
Great companies are improved by them”.*

Bringing Together - Growing Together

Appreciation

We want to thank the Supervisory Board of

Directors for their advice and support during the year. A special word of thanks goes out to the departing Chairman of the Board

Mr. Roy Khodadin whose loyalty to the Company is expressed by his many years of constructive participation and guiding the Company during good and bad times.

The fact that VSH personnel are committed and willing to embrace new opportunities and grow together with the VSH brand, is exceptional. Their commitment is the foundation of the Company's growth and success.

To our customers and suppliers, we express our appreciation for their loyalty and contribution.

7. **VSH Marketing Company Ltd.**
8. **N.V. VSH Logistics**
9. **N.V. VSH Labour Services**
10. **VSH-UNITED (USA) L.L.C.**
11. **VSH-UNITED (GUYANA) INC.**
12. **N.V. VSH Agency Services**
13. **N.V. VSH FOODS (56.01%)**
14. **N.V. Consolidated Industries Corporation (CIC) (60.15%)**

The associate is:

1. Assuria N.V. (24.63%)

The VSH United Group is involved in: shipping, logistics, transport, port operating, steel fabrication, manufacturing of butter, margarine and shortening, manufacturing of household cleaning products and packaging material, trading, insurance, real estate and investment.

2.) Basis of preparation

2.1) Statement of compliance

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles.

2.2) Basis of Measurement

Specific basis of measurement are: Property and plant are valued at costs adjusted for hyperinflation. Equipment and software are valued at cost. Financial assets are valued at fair value. Other assets and liabilities are stated at fair value using the historical cost method.

The methods used to measure fair value are described further in note 2.6.

2.3) Functional and presentation currency

These consolidated financial statements are presented in Suriname Dollars (SRD), which is the Company's functional currency. All financial information presented in SRD has been rounded to the nearest dollar.

2.4) Use of estimates and judgments

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods if affected.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amount recognized in the consolidated statement of income are described in note 17.

2.5) Application of IFRS standards

Certain provisions from the following IFRS standards were applied to these consolidated financial statements:

IAS 7: Statement of Cash Flows
 IAS 16: Property, Plant and Equipment
 IAS 17: Leases
 IAS 18: Revenue
 IAS 24: Related Party Disclosures
 IAS 28: Investments in Associates and Joint Ventures
 IAS 29: Financial Reporting in Hyperinflationary Economies
 IAS 33: Earnings Per Share

2.6) Accounting policies

The accounting policies adopted are consistent with those of previous financial year.

Subsidiaries

Subsidiaries are those companies over which the Company has control, defined as the power to govern the financial and operating policies so as to obtain benefits from their activities. Subsidiaries are recognized in the Parent Company according to the net equity method. Subsidiaries with a negative equity are valued at zero. Subsequently a provision is necessary and will be formed in the Parent Company to the amount of the equity or the obligation with regards to the shareholders position.

Subsidiaries are fully consolidated and the financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company. All balances, transactions, income and expenses between Group companies are eliminated. Non-controlling interests represent the portion of profit and net assets not held by the Company and are at presented separately in the consolidated statement of income and within equity in the consolidated statement of financial position.

Associate

Within the framework of IAS 28 associates are those companies over which the Company has significant influence and that is neither a subsidiary nor an interest in a joint venture. The investment in an associate is initially recognized at cost and the carrying amount is increased or decreased to recognize the Company's share of the profit or loss of the associate after the date of acquisition. The Company's share in the profit or loss of the associate is recognized in the Company's statement of income. Dividend received reduces the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the Company's proportional interest in the associate arising from changes in the revaluation of property, plant, equipment and other assets.

As of 2010 Assuria is presented as an associate.

Under IAS 28.6 the Company meets the requirement of significant influence by virtue of:

1. The share position of 24.63% in Assuria.
2. The Company holds two out of six positions on the Assuria Supervisory Board including the Chair.

Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Group at the internal exchange rates derived from the free market at the dates of the transactions. Monetary assets and liabilities denominated in foreign currency that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Exchange differences arising are charged or credited to the statement of income.

The exchange rates used for the US Dollar (USD) the EURO and the GYD per 31 December are:

in SRD	2017	2016
US	7.55	7.50
EURO	9.04	7.93
GYD (per 100)	3.51	3.57

Foreign operations

The assets and liabilities of foreign operations on consolidation are translated to the SRD at the exchange rates at reporting date. For consolidation purposes the revenues and expenses of foreign operations are translated to the SRD at the average monthly internal exchange rate. The Company's shares in foreign operations are valued at the exchange rates at reporting date.

Property, plant and equipment (PP&E)

Land is carried at cost adjusted for hyperinflation. Land improvements and buildings are carried at cost adjusted for hyperinflation less accumulated depreciation. All other property, plant and equipment are carried at costs less accumulated depreciation.

Depreciation is calculated using the straight-line method to write off the costs of individual assets to their residual values over their estimated useful lives as follows:

Buildings	20 - 40	years
Land improvements	5 - 10	years
Machinery and equipment	5 - 10	years
Motor vehicles	5	years
Other assets	3 - 5	years

When a major repair or maintenance is performed, its cost is recognized in the carrying amount of the property, plant and equipment as a replacement, if the recognition criteria are satisfied.

Gains and losses of PP&E

Net gain or loss arising on the disposal or retirement of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the statement of income. There are no assets held under financial leases, and assets held under operating leases are not recognized in the statement of financial position.

Intangible assets

Intangible assets with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognized on straight-line basis over their estimated useful lives of the related assets. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognized in the statement of income under depreciation and amortisation. The current estimated useful life is 3 years.

Financial Assets

Financial assets consist of shares of listed companies that are not subsidiaries or associates. The shares are measured at their fair value, which is the closing price of the last trading session of the stock exchange in December 2017, where the shares are listed.

Inventories

Inventories are stated at cost, less a provision for the reduced marketability of inventories if applicable. Cost is calculated using the last landed costs method. Costs comprise direct materials and all costs incurred to bring inventories to their present location and condition net of discounts, rebates and bonuses.

Finished products and work in progress

Finished products and work in progress are valued based on the raw and packaging materials used.

Trade and other receivables

Trade and other receivables are stated at fair value less an allowance for uncollectible amounts, if there is objective evidence that the Group will not be able to collect the receivable. Trade receivables do not carry interest. Included in other receivables are hire purchase transactions which confer rights and obligations.

Cash and cash equivalents

Cash and cash equivalents comprise of cash in banks and cash on hand.

Loans

Interest bearing loans are recorded at the fair value of the consideration received net of transaction costs. After the initial recognition interest bearing loans are subsequently measured at amortized cost using the effective interest method.

Provisions

Provisions are recognized for actual (legal or constructive) obligations when a reliable estimate of the amount can be made, existing at reporting date and arising from past events, for which it is probable that an outflow of economic benefits will be required to settle the obligation. Some of the Company's subsidiaries provide warranties on products sold. Provisions are made for the estimated costs arising under these warranties upon the date of sale of the relevant products.

Trade and other payables

Trade and other payables are stated at fair value. Trade payables do not carry interest.

Employee benefits

The Group employees participate in a defined benefit pension plan. Some of the pensions are insured while other employees participate in a pension fund.

The Group's contribution is recorded under personnel expenses in the statement of income.

The Group, except for CIC, has no obligations for long-term employee benefits. CIC has the obligation to pay medical benefits to pensioners. A provision based on actuarial calculations has been recognized for long-term employee benefit obligations.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid under short-term benefits if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Revenue

Revenue from the sale of products in the ordinary course of business is measured at the fair value of the consideration received or receivable, net of turnover and sales taxes, customer discounts and other sales related discounts. Revenue from the sale of products is recognized in the statement of income when the amount of revenue can be measured reliably, the significant risk and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of products can be estimated reliably, and there is no continuing management involvement with the products. Revenue from services rendered is recognized in proportion to the stage of completion of the transaction at reporting date. Revenue from operating leases is recognized on a straight-line basis over the term of the relevant lease.

Other income

Other income comprises of income from previous years, gain from sale of PP&E, gain on revaluation of inventories, transfer fees, broker provisions, proceeds from sales of empty drums, proceeds from promo activities, fees for consulting, terminal, agency, and other services.

Finance income and finance costs

Finance income comprises of bank interest received and is recognized when incurred.

Finance costs comprises of borrowing cost and bank charges and are recognized as an expense when incurred.

Associate and investments

Share of profit in associate comprises of the Company's share in the profit or loss of the associate.

Investments comprise of dividend received from financial assets and are recognized when received.

Expenses**Operating lease payments**

Payments made under operating leases are recognized in the statement of income on a straight-line basis over the term of the lease.

Income tax

Taxes on income are accrued in the same period as the revenues and expenses to which they relate. Current tax receivables and payables for the current and prior periods are measured at the amount expected to be recovered from or paid to the Tax Authorities. The tax rates and the tax laws used are those that are enacted or substantively enacted at balance sheet date. Deferred taxes are recorded, using the balance sheet method, for temporary differences between the carrying amounts of assets and liabilities for commercial purposes and the amounts used for taxation purposes. Deferred tax is measured using the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at balance sheet date. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reviewed at each balance sheet date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Earnings per share

Earnings per share is calculated by dividing the profit or loss attributable to ordinary Shareholders of the Company by the weighted average number of ordinary shares outstanding for the period.

5.) Income tax and deferred tax liabilities

Income tax

Income tax is calculated at the applicable rate (36%) over the result of the financial year, taking into account temporary differences between the calculation of profit according to the financial statements and the taxable profit calculation. In 2013 the Tax Inspector agreed that the final tax assessments for CIC regarding the years 2007 up to and including 2012 will be imposed after an audit from the Tax Authorities which commenced in 2013. At reporting date the income tax audit have not been completed by the Tax Authorities.

The current tax payable is specified as follows:

in SRD	2017	2016

* Included VSH FOODS SRD 35,989 (2016: SRD 35,521)

Deferred tax liabilities

These are tax liabilities arising from the differences between valuation for commercial and for taxation purposes. In 2002, 2003, 2004 and 2005 requests for the application "accelerated depreciation" according to the investment code 2001 were submitted by VSH FOODS to the Ministry of Finance for part of the investments made in PP&E from 2002 to 2005. In the financial statements it is assumed that part of the requests will be granted. This assumption is based on the approvals and rejections received from the Ministry of Finance. As a result of the application of the "Iron Inventory" valuation method the inventory has been written down this year based on the actual situation. A tax rate of 36% is used for the determination of this liability.

De deferred tax liabilities are specified as follows:

in SRD	2017	2016
Balance as at 1 January	16,191,338	12,612,811

Opinion

We have audited the accompanying financial statements 2017 of N.V. Verenigde Surinaamse Holdingmij.- /United Suriname Holding Company, in Paramaribo, which comprise the consolidated statement of financial position and the company statement of financial position at December 31, 2017, the consolidated statement of income and the company statement of income, the consolidated statement of cash flows and the consolidated statement of changes in equity for the year then ended and the notes, comprising a summary of the accounting policies and other explanatory information.

In our opinion, the financial statements give a true and fair view of the financial position of N.V. Verenigde Surinaamse Holdingmij.- /United Suriname Holding Company and of its financial performance and its cash flows for the year then ended in accordance with generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of N.V. Verenigde Surinaamse Holdingmij.- /United Suriname Holding Company in accordance with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the 2017 financial statements, our responsibility is to read the other information included in the annual report and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. Based on the procedures performed, the other information included in the annual report is not materially inconsistent with the financial statements and appears not materially misstated.

Responsibilities of the Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
