

ANNOUNCEMENT VSH Group of Companies

VSH Group of companies, taking into consideration the developments surrounding the possible spread of the Corona Virus and to ensure the health and well-being of our employees has implemented the Group Disaster Recovery Plan to facilitate business continuity for those companies that support critical economic activities that will allow country Suriname to work through the containment process.

As of today, Monday March 16 2020 all VSH cargo consolidation centers in Miami/Rotterdam, ship agency and terminal operations Suriname and Guyana are open and operating. Cargo acceptance, shipping activities and cargo release services are functioning normally. All Trading and Production related business activities are also fully operational.

The following measures have been taken:

- **In line with all regulations and guidance from local and international authorities the business locations have implemented stringed measures limiting personal contacts between employees and or suppliers/customers. Extra sanitizing cleaning activities are carried out to prevent work floor contamination.**
- **Those employees that can work from home have been facilitated to do so.**
- **Required direct contact between employees and customer/suppliers have been restricted and all are encouraged to communicate via email or phone.**

The VSH Group will make every effort to service our customers but possible response delays can occur. For those issues that require urgent attention and are experiencing delays thought the respective company email/phone contacts, please email to info@vshunited.com for extra support services.
